

Khadeeja Rajub

Computer Engineer

AI & Automation | Digitalisation | Process Improvement

Durban, South Africa | +27 82 810 4189 | khadeejarajub@gmail.com

SUMMARY

Computer Engineer and Digitalisation Graduate at Al Baraka Bank, currently completing a Master's degree at UKZN. Drawn to the parts of a process that slow people down, and committed to fixing them by integrating technologies available, and building those that aren't, to get the results that business needs. Enjoys partnering with business users to shape a solution, then seeing it through build, testing and training, and picking up a new tool or technique along the way.

SKILLS

AI & Automation: Copilot Studio agents, Power Automate, AI Builder, Azure AI Document Intelligence, prompt engineering

Power Platform: Power Apps, SharePoint, Power BI, connectors, JSON/API integration

Process & Data: Process mining, process mapping, bottleneck analysis, root cause analysis

Engineering & ML: Python, C/C++, HTML, OpenCV, machine learning, computer vision

EXPERIENCE

Digitalisation Graduate | *Al Baraka Bank*

Jul 2026 - Present

- Built Yara, a Copilot Studio chatbot that improves the customer experience by answering queries instantly and streamlining complaint and lead capture into SharePoint and Freshdesk; delivered through UAT and deployment, now in sign-off.
- Built an AI agent for executive client visits, from design and build through deployment and ongoing enhancement.
- Automated the HR stay-interview process using Power Automate, SharePoint and Azure AI for transcription, sentiment analysis and theme analysis.
- Built and maintained Power Automate flows and supporting SharePoint lists for teams across the bank, automating reminder notifications and status updates.
- Built Power BI reports and dashboards for business users, turning SharePoint and operational data into self-service reporting.
- Researched and tested process mining for banking processes, using real-world financial application data as a first test, to map current state, identify bottlenecks and propose optimizations and automation opportunities.

Project Management Intern | *Introspection Consulting (Pty) Ltd*

Dec 2025 - Mar 2026

- Assisted in managing interns across projects, running regular standups and maintaining ongoing communication.
- Developed interactive and engaging training material, and supported interns with technical and general queries.

Research Assistant | *Dr. MF Khan, UKZN*

Jun 2025 - Jul 2025

- Used satellite imagery and computer vision to design a detection system for powerline-to-tree interference for infrastructure safety monitoring.
- Built web-based engineering tools in HTML; ran optimisation and data mining studies.

FEATURED PROJECTS

Phasa AI - Bootcamp Winner | *Kizuri Tech Solutions Bootcamp*

Apr 2025 - Jul 2026

- Originated and pitched Phasa AI, an AI-powered study platform that summarises uploaded notes, generates quizzes, prioritises exam topics by mark allocation, and builds a personalised study plan from quiz results and exam date.
- Named a winning team at Demo Day, one of the first cohort winners of the Kizuri Tech Solutions Bootcamp.

AI-Based Cell Detection | *UKZN Final Year Engineering Project*

Aug 2025 - Nov 2025

- Built an automated diagnostic system for medical images using computer vision and machine learning.
- Wrote the full Python pipeline: preprocessing, model inference and visualisation of results.

CREDENTIALS

➤ Microsoft Applied Skills: Enhance agents with autonomous capabilities

Aug 2026

➤ Microsoft Applied Skills: Build an agent in Microsoft Copilot Studio

Aug 2026

➤ Microsoft Applied Skills: Create and manage automated processes by using Power Automate

Aug 2026

➤ Simplilearn: Project Management for Engineers

Sep 2026

EDUCATION

Master of Engineering in Computer Engineering | *University of KwaZulu-Natal*

In Progress

Research topic: A Machine Learning-Based Framework for Automated Urine Sediment Analysis in Chronic Kidney Disease Diagnosis

Bachelor of Science in Computer Engineering | *University of KwaZulu-Natal*

2020 - 2025
